Mr. Vivek Yadav
Principal,
K.V. BSF, Jodhpur
Rajasthan

Dear Mr. Yadav

Congratulations for being selected as one of the schools for the Atal Tinkering Lab Grant.

Towards the aim of creating an Innovation Ecosystem in the country, we at Intel are supporting the national program for innovation by the NITI Aayog - Atal Innovation Mission - Atal Tinkering Lab.

Intel has signed a Statement of Intent (SOI) with NITI Aayog with an objective to co-lead the creation and management of 10 Atal Tinkering Labs as State hubs across India. Towards this aim 30 schools were shortlisted from the 257 schools selected by NITI Aayog. Out of these 30 schools, we have finalised the top 10 schools where Intel will partner and support in addition to the grant being provided by NITI Aayog.

We are delighted to share with you - K.V. BSF, Jodhpur is one of those selected ten schools for being a state hub school supported by Intel under the aegis of Atal Innovation Mission - Atal Tinkering Lab program. The same has been shared with concerned authorities at NITI Aayog.

We will be sharing detailed information about the expectations, responsibilities and future plans soon. For now may we request you to please help arrange for the selected lab area as mentioned in the Atal Tinkering Lab grant document for setting up the Atal Tinkering Lab.

We look forward to work together towards achieving the goal of building next generation innovators.

Thanks

Yours Sincerely,
Regards
